Abstract

This research aims to determine the forms of toxic relationships in dating, the factors that cause toxic relationships in dating and the impact of toxic relationships on students who are victims of toxic relationships in reconnecting with the opposite sex. This activity uses interview and question and answer methods with the aim of exploring and studying the experiences of students who have been in toxic relationships while dating. The results of this activity for students who have experienced toxic relationships in dating show that first, the factors that cause toxic relationships in students are internal factors such as unstable emotional states, immature ways of thinking and victims of dependence on their partners, while. external factors such as the influence of the social environment, jealousy, cheating and disobedience. Second, the impact experienced by students who have experienced toxic relationships in dating When reconnecting with the opposite sex, there are psychological impacts such as the emergence of fear and trauma from reconnecting with the opposite sex. However, during the question and answer session, there was information that admitted that he had difficulty getting to know new people and ultimately chose to return to his toxic past on the grounds that his past loved him more than new people.

Keywords: dating, disrupt, health, relationship, toxic

¹ Correspondence author.

INTRODUCTION

Toxic Relationship as far as the researcher's search comes from two words, namely toxic meaning severe poison and relationship (Carolina et al., 2023; Praptiningsih & Putra, 2021). Toxic relationships are very dangerous in a relationship, especially in dating (Adellia et al., 2023; Dandi & Veronica, 2023; Munte, 2017, 2022a, 2022c; Munte & Korsina, 2022; Munte & Wirawan, 2022). So a toxic relationship is a relationship between individuals or groups that is poisonous, destructive and killing.

So toxic relationships are poisonous relationships, unequal relationships, mutual reduction and mutual subordination between the weak and the strong (Andiny, 2020, 2023; Anggreni, 2023; Dandung et al., 2022; Kamayuda & Sulistyowati, 2015; Merdiasi, 2013, 2022; Merdiasi et al., 2017, 2022; Merdiasi & Kristiani, 2021; Nugrahhu et al., 2023; Sepniwati, 2022; Sulistyowati et al., 2021, 2022; Teriasi et al., 2022; Utami, 2022; Utami et al., n.d.; Wahyudi et al., 2023). Basically between men and women. In addition, it means that destructive relationships not only damage their own individual relationships, but also between other individuals.

Toxic relationship is an unhealthy relationship that can cause physical, emotional damage to self and others according to, people who have toxic relationships or unhealthy relationships, often do not know that they are in a dangerous relationship (Amiani, 2022; Awak et al., 2023; Fitriana et al., 2023; Istiniyah et al., 2023; Manik et al., 2023; Munte, 2022b; Munte, Saputra, et al., 2023; Munte, 2023b; Munte & Monica, 2023; Munte & Natalia, 2022; Peryanto et al., 2023; Prasetiawati, 2022; Putri et al., 2023; Riska et al., 2023; D. A. Saputra et al., 2023; J. Saputra & Sukarno, 2019; Sriwijayanti, 2023; Supardi, n.d., 2014, 2022; Supardi et al., 2023; Tekerop et al., 2019; Trisiana et al., 2023).

However, many people know that it is not good to continue the relationship (Fransisko et al., 2024; Keristina et al., 2023; Lumbanraja, 2021; Magdalena et al., 2022; Malau, 2021, 2023; Munte, 2022a; Munte, Natalia, et al., 2023; Munte, 2017, 2018b, 2018a, 2022c; Pernando et al., 2022; Pramana et al., 2023; Rosen et al., 2023; Suriani & Betaubun, 2022; Trisiana et al., 2023; Wirawan et al., 2023). Toxic relationships are rampant in dating relationships that are dominated or characterized by selfishness, excessive jealousy, being held back and pressured by a partner, feeling uncomfortable in a dating relationship, not respecting your partner, and many other negative behaviors or attitudes that occur in dating relationships.

Getting out of a toxic relationship is not easy. This is because humans are social creatures that need each other, help each other, and always live in groups that are inseparable from interaction and communication with each other (Eribka et al., 2023; Erika et al., 2023; Haloho et al., 2013; Haloho, 2016, 2022b, 2022c, 2022a, 2023; Hasan et al., 2023; Kurniati et al., 2023; Ligan, 2022; Loheni et al., 2023; Munte, 2021b, 2021a, 2021a, 2023a; Rahmelia et al., 2022; Rosen et al., 2023; Rudie, 2021; Sarmauli et al., 2022; Silipta et al., 2021, 2023; Sulistyowati et al., 2022; Timan Herdi Ginting et al., 2022). The existence

of communication can make it easier to interact with other people so that the intent and purpose you want to convey can be realized.

However, many people know that it is not good to continue the relationship. Toxic relationships are rampant in dating relationships that are dominated or characterized by selfishness, excessive jealousy (Darma et al., 2023; Inriani, 2021b, 2021a; Melliani, Christian, et al., 2023; Melliani, Munthe, et al., 2023; Munte & Monica, 2023; Munte & Wirawan, 2022; Octaviana et al., 2023; Palit et al., 2023; Pengky et al., 2023; Pramana et al., 2023; Samuel et al., 2023; Siburian et al., 2023; Sopiani et al., 2023; Tirayoh et al., 2023; Triadi, Prihadi, et al., 2022; Wirawan, 2021).

Being held back and pressured by a partner, feeling uncomfortable in a dating relationship (Colina, 2015, 2016, 2021; Ginting, 2010; Inriani, 2021b; Malau, 2021, 2023; Munte, Natalia, et al., 2023; Salmanezer et al., 2023; E. J. Saputra et al., 2023; Sari & Ginting, 2023; Seruyanti et al., 2023; Sihombing, 2015, 2019, 2022; Timan Herdi Ginting et al., 2022; Trisiana et al., 2023; Wirawan et al., 2023). Not respecting your partner, and many other negative behaviors or attitudes that occur in dating relationships.

Getting out of a toxic relationship is not easy (Eribka et al., 2023; Fransisko et al., 2024; Hendrik et al., 2022; Mamarimbing et al., 2023; Mariani, 2020, 2022b, 2022a, 2023; Meilan & Mariani, 2023; Rosen et al., 2023; Saputri et al., 2023; Silipta et al., 2021, 2023; Sinta et al., 2023). This is because humans are social creatures that need each other, help each other, and always live in groups that are inseparable from interaction and communication with each other (Ginting, 2010; Lana et al., 2023; Lumbantobing, 2022; Reggina & Indriani, 2023; Rudie, 2021; Sari & Ginting, 2023; Wulan, 2005, 2023; Wulan & Sanjaya, 2022). The existence of communication can make it easier to interact with other people so that the intent and purpose you want to convey can be realized.

RESEARCH METHOD

The type of research used in this journal is qualitative, extracting data using interview techniques to research sources, namely sources who know and have experienced toxic dating relationships. The researcher then conducted face-to-face interviews via cell phone audio recording with the consent of the interviewees.

After the interview, the researcher again transcribed the recording results into a written interview transcript. and Interviews were conducted with four interviewees and interviews were conducted, the first interviewee for 11 minutes, the second for 15 minutes, the third for 9 minutes and the fourth for 16 minutes. The place and time of the research was from September 15 to September 2023 at the source's boarding house. The sources came from different universities in Palangka Raya.

RESULT AND DISCUSSION

Based on the research that has been conducted, and the researchers in this section describe the results of interviews from four sources, the following are the views

of four sources. The first source and the fourth source believe that a toxic relationship is a toxic relationship, a relationship that is already unhealthy (Apandie et al., 2022; Apandie & Rahmelia, 2020, 2022; Batuwael et al., 2019; Darnita & Triadi, 2022, 2023; Jasiah et al., 2023; Kristin et al., 2022; Langi et al., n.d.; Mualimin et al., 2022; Mukuan et al., 2022; Pongoh, n.d., 2022a, 2022b, 2023; Rahmelia, 2020; Rahmelia et al., 2022; Rahmelia, Prasetiawati, et al., 2023; Rahmelia, Prihadi, et al., 2023; Rahmelia & Agustina, 2022; Rahmelia & Apandie, 2023; Rahmelia & Prasetiawati, 2021; Suratinoyo et al., 2019; Triadi, n.d., 2022; Triadi, Pongoh, et al., 2022; Triadi, Prihadi, et al., 2022). So, that one of the people involved in it feels unhappy, feels humiliated, experiences injustice.

The target of anger that ends in violence, verbal, psychological and physical violence from their partner. So that the relationship is no longer healthy and causes feelings of unhappiness even though they continue to spend time with their partner (Angellyna & Tumbol, 2022; Susila, 2022c, 2022a, 2022b; Susila & Pradita, 2022; Susila & Risvan, 2022; S. Tumbol, 2020; TUMBOL, 2022; S. N. Tumbol & Wainarisi, 2023; Wainarisi, 2021b, 2021d, 2021c, 2023; Wainarisi et al., 2022b, 2022a, 2023; Wainarisi, 2021a; Wainarisi & Tumbol, 2022b, 2022a).

The second and third sources argue that a toxic relationship is a relationship that is unhealthy and damaged by one of the partners, and can make one of the partners feel disadvantaged. In terms of feelings in the mind. the notion in the subconscious as one of the partners always makes anxiety in himself (Alfianoor et al., 2023; Carolina et al., 2023; Fernando et al., 2023; Jasiah et al., 2023; Lana et al., 2023; Mariani et al., 2023; Melliani, Christian, et al., 2023; Muslimah et al., 2023; Pattiasina et al., 2022; Pradita, 2021; Pradita & Veronica, 2023; Pransinartha, 2022; Pransinartha et al., 2023; D. A. Saputra et al., 2023; Sarmauli et al., 2022; M. T. Sarmauli, n.d., 2020; S. Sarmauli, 2016; S. Sarmauli & Pransinartha, 2022; Setinawati et al., 2021; Sriekaningsih et al., 2019; Surya, 2020, 2021, 2023b, 2023a; Surya & Setinawati, 2021; Triani et al., 2023; WK GINTER et al., 2009). So, his partner always thinks about worry, anxiety.

"Awal-awalnya saat saya keluar dari hubungan toxic saya itu semua sering terulang di pikiran saya dan sangat-sangat menghantui pikiran saya tapi setelah waktu berjalan saya mulai menyadari dan saya mulai belajar mengampuni dan mengasihi dia seperti yang Tuhan Yesus ajarkan dan saya sudah berusaha untuk melapaskan kepahitan dalam diri saya dan saya mau belajar melihat hal baik yang ada di depan saya pada saat ini"

Researchers see that toxic relationships, relationships or something that acts of manipulation that forces victims to doubt themselves, first, physical violence committed against the victim, namely throwing a helmet at the victim, causing the victim's forehead to become lumpy and bruised.

"Cara kaka memperbaiki mental kaka pada saat itu kaka melihat banyak orang di sekeliling kaka yang sayang dan peduli terhadap kaka dari situ kaka mulai bangkit dan berjalan melihat kedepan tanpa melihat ke belakang lagi dan cara kaka lagi memperbaiki mental kaka, kaka lebih mendekatkan diri pada Tuhan dengan sering ibadah, berdoa pokonya kaka menyibukan diri dengan hal-hal yang positif"

The impact of toxic dating experienced by the informants are: They become less sociable and feel depressed, victims feel unfree in their life choices because they are always regulated or prohibited by their partners, and always feel anxiety, worry. Here are some results of interview conversations with research subjects,

"Menurut kaka sih hubungan toxic itu hubungan yang sudah tidak sehat sehingga membuat salah satu yang terlibat didalamnya merasa tidak bahagia merasa di rendahkan, mengalami ketidakadilan selalu menjadi sasaran amarah yang berakhril pada kekerasan, kekerasan verbal, psikologis maupun fisik dari pasangannya, sehingga hubungan tersebut tidak sehat lagi dan menimbulkan perasaan tidak bahagia meskipun terus menghabiskan waktu bersama pasangannya"

The tug-of-war of a relationship often breaks up in the middle. Although there are some cases where they come back together not long after breaking up, until such conditions cause one of the partners to feel that the relationship is not good.

"Kalau cara saya waktu itu sih saya diam saya nangis gitu-gitu aja lah.. Dampaknya ya saya jadi kurang bergaul terus saya merasa tertekan apalagi dia sampai bermain tangan dan saya merasa tidak bebas dalam pilihan hidup saya"

Verbal violence is a form of violence against feelings by using harsh words without physical contact, including blaming, cursing, threatening, insulting, and defaming, which makes the victim feel insecure (Erika et al., 2023; Ligan, 2022; Loheni et al., 2023; Nugrahu, 2020, 2021, 2022; Nugrahu et al., 2023; PAHAN et al., 2011, 2014; Pahan, 2020, 2021; Pahan & Prasetya, 2023; Rosen et al., 2023; Sulistyowati et al., 2021; Wahyudi et al., 2023; YUEL et al., 2011; Yuel & Keintjem, 2021). Unable to express what they feel because they are being treated badly, so the victim experiences a poor mental state. In addition, verbal violence indirectly makes victims feel worse and even traumatizes them.

"Iya saya merasa takut memulai hubungan lagi dengan seseorang dan saya takut kejadian yang saya alami akan terulang lagi dan saya menjadi tidak mudah percaya dengan orang baru yang datang di kehidupan saya, saya merasa orang datang itu"

akan menjadi sama seperti dia sehingga sampai sekarang saya menanti orang yang benar-benar meyakinkan saya”

Possessiveness is a trait that makes someone feel like an owner. In other words, this trait feels that his partner belongs to him, so he will make his partner not be allowed to hang out with his friends, not be allowed to go out with his friends, he only wants his partner to focus on him alone.

CONCLUSION

The conclusion from the foregoing discussion is that toxic relationships can be mentally damaging, contribute to unhappiness, and announce the power relations between women and men. This imbalance leads to a variety of violence that is part of a common struggle. Across religions, cultures, economies, genders, and disciplines. And, the causes of toxicity in a relationship include personality imbalances, unstable emotions, unbalanced communication, and being dominated by only one party.
